Me Page

This project is worth 200 points. The theme of this website is you; your assignment is to build a personal web page (min. 3 web pages). You must give credit for all borrowed information and or all media.

The following must be completed before your assignment will be graded:

- A OneDrive folder titled, "first name, first letter in your last name" (example: DavidG)
- All web pages and all information contained in your website saved in the new folder stated above.
- The starting page for your site has the file name' "INDEX" and contains your background information

Your website must contain the following:

75pts. 3 web pages

Index – This is your starting point of your website and will contain your background information (50+words=25pts.).

P2 – This page will contain information about your interests and hobbies (50+words=25pts.).

P3 – This page will contain information about your plans after completing High School. (50+words=25pts.).

15pts. Proper use of all HTML code commands and attributes. **No misplaced/used tags | order and sequence matter**

15pts. Consistent, esthetically pleasing color scheme. **Text should be in CONTRAST to the background color or image**

15pts. All web pages hyperlinked together. **Hyperlinked in a WEB layout - you can get to any page from any page**

20pts. FIVE thumbnailed images with **BOTH** TITLE="???" **AND** ALT="???" attribute

10pts. Table with border attribute set greater than "0".

10pts. Table with border attribute set at "0".

15pts. Incorporation of a script from 'Dynamic Drive.com' **(make sure to tell me where it is if it isn't easily identifiable)**

10pts. Lowered opacity image set as a watermarked background. **Background image shouldn't move when the page scrolls**

15pts. Image rollover. **CSS style code that causes a image to switch with another picture when the mouse moves over the image**
