

Name: _____

Image File Types

Compare & Contrast Assignment

Save all work in a folder titled, "ImageFileTypes" inside your class-network folder.

You will describe and define:

1. What is a [.gif](#) image
2. What is a [.jpg](#) image
3. What is a [.png](#) image

You will create a "Slide Presentation":

The presentation must have 10 slides and be proportionally balanced between the 3 subtopics. You will also:

- 1 - Define the differences between all 3 formats
- 2 - Define the similarities between all 3 formats
- 3 - Define what format is best for a photograph
- 4 - Define what format is best for clipart
- 5 - Define what format gives the highest quality image with the smallest file size.

<u>Requirement</u>	<u>Point Value</u>	<u>Check-off</u>
10 slides	40	
Slide Transitions	5	
3 images	5	
Save Presentation in .pdf format in addition to the default PowerPoint format, .pptx	10	
Answer/address the questions listed above	40	
total	100
