

Influential American Woman Website

Dreamweaver Website Instructions - Foundations of Web Design

You will choose (randomly, from a bowl of numbers) an Influential American and begin to find/save information and photos about that person.

Make sure that you find out what is unique about your chosen Influential American Woman and what sets her apart from other women in history. Create a new folder titled, "the name of the Influential American Woman that you have chosen" inside of your network folder. Here is an example of possible folder title, "Susan B. Anthony".

Now you will begin creating a Dreamweaver page about your chosen Influential American Woman. First, you must have a plan or outline. Also, you must have at least 4 hyperlinks, 3 of which must be done as follows:

- link (1) will be HOME and will target the main/target portion of your Dreamweaver website.
- link (2) will be specific to your Influential American Woman (i.e. Susan B. Anthony – "Women's Suffrage").
- links (3) & (4) must contain information about your Influential American Woman; the focus and content of these 2 pages will your decision – try to be cohesive.

Links/Pages 2, 3, 4 must have at least 3 thumbnailed images and 2 paragraphs that reflect the desired theme of the page (at least 9 total images and 6 paragraphs – 1 paragraph has at least 5 sentences). You are also required to give credit for all borrowed media and text.

Upon completion of this project you may choose to load your page on the computer with the projector attached to it and demonstrate how to navigate your page (in front of the entire class) and answer any questions about your page or Influential American Woman, for extra credit (20pts.).

All work and media contained in a 1 folder titled after the chosen Influential American Woman	Zero if not present
Website has 4 links	40 pts - 10per
Pages are properly titled -- Starting Page titled, "INDEX"	25 pts - 05per
