

Technology Terms

Foundations of Web Design

****READ ENTIRELY PRIOR TO BEGINNING****

Not following these instructions will result in a loss of potential points

On a separate sheet of your own paper (clearly handwritten), define each technology term below. Keep terms in numeric order, or points will be deducted. Write a sentence for each term directly below the definition, like the example below. Do not do definitions and sentences on 2 separate sheets of paper, follow format of the example below. Each sentence should contain a subject, predicate, and linking verb. Along with this sheet, include all other sheets of lined notebook paper used to complete this assignment and then staple all sheets of paper together. Make sure this sheet is on top before you staple and also make sure your name is on each sheet of paper. If you do not follow these instructions or you do not complete this assignment you will not receive full credit. This assignment is worth a total of 80 points, each definition and sentence is worth 1 point each, there are 40 terms. 40 terms x 2 points each = 80 points possible

For example, the term "WEB2.0" should be written like this,

WEB2.0

- + (definition) The WEB 2.0 is the web where the user creates the content. Sites like; Youtube, Blogs, & Facebook are Web 2.0.
- + (sentence) The WEB 2.0 is an empowering force for the individual because they create the content of the website.
