

# Paste-Into Assignment

\*Using ADOBE Photoshop\*

You will choose 10 descriptive words to be used in this assignment. For example, if you choose the word "Affluent" you could paste an image of a \$100 dollar bill into the letters of the word. The directions and program procedures will be given in class and there will be a screencast of the directions and procedures placed on the class website for further review at your convenience.

Once you have created and completed your Paste-into words, then save all 10 files as .png files, inside a (new) folder titled, **Photoshop\_Paste\_Into**. Finally, upload the folder and its contents to your OneDrive folder.

<b>Requirement</b>	<b>Points</b>
10 files (words and paste into image)	50 (5 points per file)
total	50

- + Image pasted into text → 3 points
  - + Apply OUTLINE filter to text → 1 point
  - + Crop and save file in .png format → 1 point
- TOTAL: 5 points per file
