Brush Tip Creation Assignment
Gimp

You will be creating 4 new and original brush tips to be used in GIMP. You will need to choose images of logos that have a solid color for their background to make the brush tips. The directions and program procedures will be given in class and there will be a screencast of the directions and procedures placed on the class website for further review at your convenience.

Once you have created all 4 brush tips you will then use all 4 just once, on a new blank canvas; save that new canvas that has all 4 of your brush tips on it as, "gimp_brushes.jpg" inside your network folder

*(you don't need to make a new folder for the file, save it inside your network folder).

Requirement	Points
Creation of 4 brush tips	32
Saved in correct location and format	8
total	40
