

Brush Tip Creation Assignment

Photoshop

You will be creating 1 new and original brush tip to be used in Photoshop. You will need to choose images of logos that have a solid color for their background to make the brush tips. The directions and program procedures will be given in class and there will be a screencast of the directions and procedures placed on the class website for further review at your convenience.

Once you have created your brush tip you will then use the tip 4 times (different colors each time) on a new blank canvas; save that new canvas that has all 4 colors of your brush tip on it as, "photoshop_brushes.jpg" inside your OneDrive folder

*(you don't need to make a new folder for the file, you may save it directly inside your OneDrive folder).

Requirement	Points
Creation and use of brush tip	32
Saved in correct location and format	8
total	40
