

# Influential American Woman Website

*Dreamweaver/CSS Website Instructions*  
**User Interface Design – 6<sup>th</sup> period**

You will choose an Influential American Woman that you do not have much knowledge about and begin to find/save information and photos about that person.

Make sure that you find out what is unique about your chosen Influential American Woman and what sets them apart from other women in history. Create a new folder titled, "the name of the Influential American Woman that you have chosen" inside of your network folder. Here is an example of possible folder title, "Susan B. Anthony".

Now you will begin creating a frames page about your chosen Influential American Woman. First, you must have a plan or outline. You are required to have preplanned your site and show this physical evidence with actual storyboards of your site and its layout. Also, you must have at least 4 hyperlinks, 3 of which must be done as follows:

- link (1) will be HOME and this is where you will introduce your website and its contents.
- link (2) will be specific to your Influential American Woman (i.e. Susan B. Anthony – "Women's Suffrage").
- links (3) & (4) must contain information about your Influential American Woman; the focus and content of these 2 pages will your decision – try to be cohesive.

Links/Pages 2, 3, 4 must have at least 3 thumb-nailed images and 2 paragraphs that reflect the desired theme of the page (at least 9 total images and 6 paragraphs – 1 paragraph has at least 5 sentences). You are also required to give credit for all borrowed media and text.
